Dear Sirs,

Re: Supplemental Immediate Report - Deployment of Ultra-Broadband Stationary Infrastructure in Israel - Approval by the Israeli Government

Bezeq hereby supplements the following reports that it has filed in the past:

- Immediate Report dated July 6, 2020, regarding the publication for public comments of the draft Economic Plan 2020 - Promoting Nationwide Deployment of Advanced Communication Infrastructures in Israel; and
- Immediate Report dated July 21, 2020, regarding the publication of the final recommendations of the inter-ministerial team for the examination of the policy for ultra-broadband stationary infrastructure deployment in Israel and its adoption by the Minister of Communications.

On September 13, 2020, the Government of Israel approved the promotion of a nationwide deployment of advanced communications infrastructure in Israel, in accordance with the final recommendations of the inter-ministerial team referenced above.

The implementation of the main part of the government decision requires an amendment to the Communications Law (Telecommunications and Broadcasting), 5742-1982.

Sincerely yours,

Bezeq The Israel Telecommunication Corporation Ltd.
