The Company reserves the right to change the way the Meeting convenes, and convene through a video conference call or conference call in which all participants will be able to hear each other, all subject to immediate reporting and providing the required notifications.

1. Topics on the agenda and resolutions summary

1.1. Approval of the allocation of unregistered options to the Company's CEO, Mr. Tomer Raved, as part of the terms of his office and employment and in deviation from the Company's Remuneration Policy¹ ("the Remuneration Policy").

- A. Mr. Tomer Raved has been the CEO of the Company since January 2020, in accordance with the employment agreement between him and the Company.

¹ As approved on April 27, 2022 by the Company's shareholders' Meeting, as specified in the Immediate Report on the Results of the Meeting (Ref. No.: 2022-01-051748), which is included in this report by way of reference.

In accordance with his employment agreement, Mr. Raved is entitled to an annual salary (in terms of employer cost) of NIS 1.4 million, including social benefits and ancillary benefits as customary in the Company and in accordance with the Company's Remuneration Policy, and is also entitled to be included in the arrangement of liability insurance of directors and officers and indemnification as is customary in the Company, as is the case with all other officers in the Company.

In addition, Mr. Raved was granted 2,677,362 unregistered options, which can be exercised for a total of 2,677,362 ordinary shares of the Company of NIS 0.1 par value each ("**Ordinary shares**") which, as of the date of this report, constitute approximately 2.3% of the issued and paid-up share capital of the Company (without dilution) ("**the Previous Allotment**"). It should be noted that subject to the approval of the allotment of unregistered options to Mr. Raved in the context of convening this Meeting, Mr. Raved will sign an irrevocable undertaking that he waives the options allotted to him under the Previous Allotment.

For further details regarding the terms of office and employment of Mr. Raved, see Regulation 21 in Chapter D of the Company's Periodic Report for 2021 (Additional Details Report), published by the Company on March 24, 2022 (Ref. No.: 2022-01-029136) ("**the Company's Periodic Report for 2021**"), which is included in this report by way of reference.

- B. On March 24, 2020, the Company's Board of Directors approved a plan for the grant of unregistered options ("**the Plan**").

At their meetings of May 19, 2022 and May 24, 2022, the Remuneration Committee and the Company's Board of Directors approved, respectively, the granting of unregistered options to the Company's CEO, Mr. Tomer Raved, as part of a non-exceptional substantial private grant report of 3,250,000 unregistered options exercisable into up to 3,250,000 Ordinary Shares.

In light of the above and as part of the terms of employment of Mr. Raved, it is proposed to approve the allocation of unregistered options to Mr. Raved, the Company's CEO, following approval by the Company's Remuneration Committee and Board of Directors, contrary to the Company's Remuneration Policy, which does not include provisions regarding capital compensation for Company officers.

For details on the grant to the CEO under the Private Offering Regulations, see Section 2 below.

Proposed resolution wording:

"Approve the allocation of unregistered options to the Company's CEO, Mr. Tomer Raved, in the number and on the conditions set forth in Section 2 of the Meeting Convening Report and in violation of the Remuneration Policy".

1.2. Approval of the allotment of unregistered options to the Company's CFO, Mr. Itzik Tadmor, as part of the terms of his office and employment and in deviation from the Company's Remuneration Policy

- A. Mr. Itzik Tadmor has been the Company's CFO since January 2019, in accordance with the employment agreement between him and the Company.

In accordance with his employment agreement, Mr. Tadmor is entitled to a gross monthly salary of NIS 46,000, including social benefits and ancillary benefits as customary in the Company and in accordance with the Company's Remuneration Policy, and is also entitled to be included in the arrangement of liability insurance of directors and officers and indemnification as is customary in the Company, as is the case with all other officers in the Company.

For further details regarding the terms of Mr. Tadmor's term of office and employment, see Regulation 21 in Chapter D of the Company's Periodic Report for 2021.

- B. At their meetings of May 19, 2022 and May 24, 2022, the Remuneration Committee and the Company's Board of Directors approved, respectively, the granting of unregistered options to the Company's CFO, Mr. Itzik Tadmor, as part of a non-exceptional substantial private grant report of 100,000 unregistered options exercisable into up to 100,000 Ordinary Shares.

In light of the above and as part of the terms of employment of Mr. Tadmor, it is proposed to approve the allocation of unregistered options to Mr. Tadmor, the Company's CFO, following approval by the Company's Remuneration Committee and Board of Directors, contrary to the Company's Remuneration Policy, which does not include provisions regarding capital compensation for Company officers.

For details on the grant to the Company's CFO under the Private Offer Regulations, see Section 2 below.

Proposed resolution wording:

"Approve the allocation of unregistered options to the Company's CFO, Mr. Itzik Tadmor, in the number and on the conditions set forth in Section 2 of the Meeting Convening Report and in violation of the Remuneration Policy".

2. Additional details required in accordance with the Private Offer Regulations in respect of a material private bid and a non-material private bid

- 2.1. The following are the details required in accordance with the Private Offer Regulations in respect of an immaterial private offer to the Company's CFO:

- 2.1.1. The Remuneration Committee and the Company's Board of Directors, at their meetings of May 19, 2022 and May 24, 2022, respectively, approved an insignificant private grant to the Company's CFO, Mr. Itzik Tadmor ("**the CFO**"), of 100,000

unregistered options ("**the Options Allotted to the CFO**") exercisable into 100,000 Ordinary Shares ("**the CFO's Exercise Shares**"), in accordance with and by virtue of the plan and in deviation from the Remuneration Policy.

2.1.2. The terms of the offered securities, their quantity and the rate in percentage they will constitute of the voting rights and equity of the Company after the allotment and fully diluted

- A. After the allotment to the CFO, the CFO's Exercise Shares will be discounted at approximately 0.09% of the voting rights and issued and paid-up equity of Company², and approximately 0.08% of the voting rights and issued and paid-up equity of the Company will be discounted after the allotment and fully diluted³.
- B. Vesting period: For the allotted options, a graded vesting period over 3 years has been set, in such a way that 1/3 of the options will become vested at the end of each year starting from May 24, 2022, the date of approval of the Board of Directors ("**the Grant Date**"), so all the allotted options will become vested at the end of 3 years from the Grant Date.

It should be noted that in the event of a change of control in Company⁴, all assigned options, which have not yet become vested, will automatically become vested and exercisable.

Also, in the event of termination of the agreement with the CFO, the vesting of the options will cease, but the options that have already become vested will be exercisable for a period of 10 years from the date of the engagement in the options agreement.

- C. Exercise price: Each Option Allotted to the CFO will be exercisable for one Ordinary Share of the Company in exchange for an exercise price of NIS 13.5, subject to adjustments.

The closing price of the Company's share on the TASE on May 23, 2022, the day preceding the publication of this report, is NIS 12.98. The exercise price is 4% higher than this price.

² Includes the allotment to the Company's CEO, as set forth in Section 2.2 below, and does not include a total of 3,646,992 dormant Company shares.

³ Includes the allotment to the Company's CEO, as set forth in Section 2.2 below, includes a total of 2,677,362 unlisted options of the Company, and does not include a total of 3,646,992 dormant Company shares.

⁴ "Change of control" means that the number of shares held by the holders indicated in the control permit granted to the Company by the Ministry of Communications as of November 11, 2019 ("**the Control Group**") is less than 50% of the total shares held by the Control Group on January 9, 2020 (after adjustments for share splitting, dividend and similar changes to the Company's equity structure ("**Control Change Event**").

- D. Exercise period: The CFO may not exercise the vested options prior to a Control Change Event, as defined below, and after a Control Change Event occurs, he may exercise only the options the exercise shares deriving from which will be available for sale thereby, as set forth below.

After the Control Group, as defined below, sold more than 50% of the shares it held as of January 9, 2020 (following adjustments for share splitting, dividends and similar changes to the Company's equity structure ("**Control Group Holdings**")), the offerees will be entitled to sell the Exercise Shares, subject to the conditions detailed below:

- (1) the offerees will not sell any Exercise Shares as long as the Control Group has not sold more than 50% of the Control Group Holdings;
- (2) In the event that the Control Group sold more than 50% of the Control Group Holdings and up to 80% of the Control Group Holdings, and subject to the offerees not resigning from their position as the Company's CEO and CFO, as the case may be, the contract with them not ending due to a Reason (as defined in the offerees' employment agreements), the offerees will be entitled to sell Exercise Shares, subject to the following cumulative conditions:
 - The percentage of Exercise Shares to be sold by the offerees out of the allotted options will not exceed the percentage of shares sold by the Control Group out of the Control Group Holdings;
 - The offerees will sell Exercise Shares only in the following cases: (a) In accordance with the tag-along right granted to them by the Control Group; Or (b) In a direct sale on the Tel Aviv Stock Exchange Ltd. ("**TASE**") (up to the limit set forth in the above conditions).
- (3) In the event that the Control Group sold more than 80% of the Control Group Holdings, the offerees will be entitled to sell Exercise Shares, provided that the percentage of Exercise Shares sold by the offerees from the allotted options does not exceed the percentage of shares sold by the Control Group out of the Control Group Holdings.

As a rule, the allotted options will be exercisable from the vesting date as specified above and for a period of 10 years from the Grant Date. Allotted options that will not be exercised until the end of the said exercise period will expire and will not confer on the CFO any right.

In addition, it is hereby clarified that the CFO will be entitled to exercise the options allotted to him up to an average profit not exceeding NIS 8,385 for each option granted.

E. The allotted options will be granted to the CFO through a trustee under Article 102 of the Income Tax Ordinance [New Version], 5741-1961 ("**the Ordinance**"), in a capital gains plan.

F. Adjustments

(1) Change in share equity

In the event of a change in the Company's share equity by way of a share splitting, share consolidation, or similar event on the part of the Company, the number of shares exercisable as a result of the exercise of the options granted under the plan will be adjusted proportionally to preserve the proportionate number of shares.

(2) Benefit shares

In the event of a distribution of benefit shares, the rights of each offeree will be preserved in such a way that the number of shares resulting from the exercise of the options will increase or decrease by the number of shares of the same class that the offeree was entitled to receive as benefit shares.

(3) Dividend distribution

If the Company distributes a dividend, and the date determining the right to receive it applies after the date of allotment of the options but before all the options have been exercised and before the offeree's right to exercise them expires, the exercise price of the options will be adjusted by reducing the exercise price for each option as stated by an amount equal to the amount of the dividend distributed for each share. To the extent that the Company distributes a dividend in kind, the holders of the options will be entitled to participate in the said distribution in accordance with the rate of their holding in the Company had the options held by them been exercised.

(4) Issuance of rights

If the Company offers its shareholders securities by way of issuance of rights, the effective date for accepting which (in this section: "**Rights X Day**") will apply before the options are exercised or expired, the rights of the options holders will be retained in such a way that the number of shares resulting from the exercise of an option will be adjusted to the benefit component in the rights issuance as expressed in the ratio between the closing price of the share on TASE on the last trading day before the "Rights X Day".

(5) Dissolution

Should it be decided to dissolve the Company while there are unexercised options, the Board of Directors may determine, with respect to the offerees, in whole or in part, that the relevant offerees may exercise the options, in whole or in part, that have not yet been exercised into shares or even become vested.

(6) Merger

In the event of a merger of the Company (merger of the Company with or into another corporation, or any other similar transaction) and in the event that the surviving entity or acquirer, as the case may be, or in the event that its parent or subsidiary, respectively ("**the Alternative Corporation**"), does not adopt the Company's liabilities under the options issued or does not replace the options issued, the Company's Board of Directors will have the sole discretion to decide on a specific period of time to exercise the vested options, or decide that they will not be exercised and expire upon completion of the merger transaction, according to the following: (1) Options that have not become vested before the date of the merger transaction will expire without any payment or consideration; (2) Options that have become vested before the transaction date will expire and the offeree will be entitled to receive consideration in cash or otherwise in an amount that reflects the difference between the value of the Company's shares (as determined in the merger transaction) and the exercise price of the options; (3) Options, whether vested or not, the replacement of which corporation has not adopted or replaced, and which have not been exercised within the period specified by the Board of Directors as specified above or have not been revoked by the Company's Board of Directors, will expire and become null and void, and the holders of these options will not be entitled to any consideration or right from the Company or the Alternative Corporation.

2.1.3. The consideration

The allotted options will be granted to the CFO without monetary consideration, in accordance with the plan and the options agreement to be signed with him, and subject to the approval of the General Meeting.

2.1.4. Absence of agreements between the CFO and a shareholder in the Company

See section 2.3.5 below.

2.2.2. The offeree being an interested party

To the best of the Company's knowledge, as of the date of this report, the offeree does not constitute an interested party, as defined in Article 270 (5) of the Companies Law, and will not become an interested party as a result of the allotment of the Options Allotted to the CEO.

B. Vesting period: For the allotted options, a graded vesting period over 3 years has been set, in such a way that 1/3 of the options will become vested at the end of each year starting from the Grant Date (as defined above), so all the allotted options will become vested at the end of 3 years from the Grant Date.

It should be noted that in the event of a change of control in Company⁷, all assigned options, which have not yet become vested, will automatically become vested and exercisable.

Also, in the event of termination of the agreement with the CEO, the vesting of the options will cease, but the options that have already become vested will be exercisable for a period of 10 years from the date of the engagement in the options agreement.

⁵ Includes the allotment to the Company's CEO, as set forth in Section 2.2 below, and does not include a total of 3,646,992 dormant Company shares.

⁶ Includes the allotment to the Company's CFO, as set forth in Section 2.1 above, includes a total of 2,677,362 unlisted Company options, and does not include a total of 3,646,992 dormant Company shares.

Date of calculation: May 23, 2022.

2.2.7. Since the allocation is part of a transaction

The allotment of the Options Allotted to the CEO is made as part of the terms of Mr. Raved's office and employment as CEO of the Company, and is approved by the Remuneration Committee and the Company's Board of Directors as set forth in Section 2.2.1 above.

2.2.8. Personal interest of a substantial shareholder or officer in the Company and the nature of the personal interest

To the best of the Company's knowledge, there is no personal interest of a material shareholder or an officer in the Company in the material private offer to the CEO of the Company, except for the personal interest of Mr. Raved due to his being the offeree in the allotment.

2.2.9. Reasons for the Remuneration Committee and the Company's Board of Directors' approval of the allotment of the Options Allotted to the Company's CEO, Mr. Tomer Raved

2.2.9.1. The allocation of options to the CEO as part of Mr. Raved's terms of office and employment is appropriate and reasonable, given Mr. Raved's education, skills, expertise and extensive managerial experience.

2.2.9.2. The Remuneration Committee and the Company's Board of Directors are of the opinion that the offered capital remuneration does not deviate from what is customary in the Company, and constitutes a proper incentive for Mr. Raved to maximize the Company's profits and to strengthen the relationship between Mr. Raved's interests and the Company's shareholders.

¹⁰ It should be noted that in accordance with the Company's reports, Mr. Raved holds 2,677,362 non-negotiable options of the Company, and subject to the approval of the allotment of unregistered options to Mr. Raved as part of the convening of this Meeting, Mr. Raved undertook to sign an irrevocable undertaking that he waives the options available to him at the time of this convening report, and that the allocation subject to the convening of this Meeting is in lieu of the previous options as aforesaid.

¹¹ Assuming that the allotment to the Company's CFO, Mr. Itzik Tadmor, will be approved at the General Meeting which will convene in accordance with this convening report.

- 2.2.9.3. The Remuneration Committee and the Company's Board of Directors have determined that the allotment of the Options Allotted to the CEO is in favor of the Company and its business, all taking into account, *inter alia*, the above and taking into account: a) the Company's size, profitability and nature; (b) The Company's long-term policy and objectives.
- 2.2.9.4. The provisions of the law allow in special cases to approve the terms of employment for the CEO not in accordance with the Remuneration Policy. In the opinion of the Remuneration Committee and the Board of Directors, the considerations presented above constitute a special case that justifies the allotment of the Options Allotted to the Company's CEO, in deviation from the Remuneration Policy. It should also be noted that in light of the Company's CEO's waiver of the options granted to him in the Previous Allotment, the economic value of the annual capital compensation to which the CEO is entitled will remain almost the same after the allotment of options to the CEO subject to this convening report.
- 2.2.9.5. Therefore, they have unanimously approved the allotment of the Options Allotted to the Company's CEO, and recommended that the Meeting approve it as well.

2.3. Additional details regarding allocations to the CEO and CFO:

- 2.3.1. According to the TASE guidelines, as will apply from time to time, no allotted options will be exercised, to the CEO or CFO, to the Company's shares on the effective date for the distribution of benefit shares, by way of rights, dividend distribution, equity consolidation or equity reduction. Each of the above will be called: "**Company Event**". In addition, if the "X" day of a Company Event takes place before the effective date of a Company Event, the options will not be exercised into shares on the "X" day as aforesaid.
- 2.3.2. The shares arising from the exercise of the options granted under this report will be identical and equal in rights, for all intents and purposes, to the rights conferred on the holder of Ordinary Shares of NIS 0.1 of the Company, existing in the issued and paid-up equity of the Company, and will confer the right to any dividend or other benefit the date determining for the right to receive such dividend or shares applies on or after the day of exercise.
- 2.3.3. The Exercise Shares will be registered in the name of the listing company of Bank Hapoalim Ltd. (or any other listing company that will be the listing company of the Company at the relevant time).
- 2.3.4. Required approvals

- The granting of the Options Allotted to the Company's CEO and CFO was approved by the Remuneration Committee and the Company's Board of Directors, at their meetings on May 19, 2022 and May 24, 2022, respectively.
- The allotments to the Company's CEO and the Company's CFO that are the subject of this report are subject to the approval of the General Meeting of the Company's shareholders.
- In addition, the allotments that are the subject of this report are subject to the receipt of TASE approval for the listing of the Exercise Shares for trading. The Company intends to contact TASE for the purpose of obtaining such approval shortly after the publication of this report. Failure to obtain approval from TASE will result in the cancellation of the allotment, and the Company's CEO and the Company's CFO will have no claim or claim against the Company.

2.3.5. Absence of agreements between the offerees and a shareholder in the Company

To the best of the Company's knowledge, based on an inquiry it has made with the offerees, there are no agreements, either in writing or orally, between the offerees, or anyone on their behalf, and a shareholder and / or a securities holder in the Company, regarding the purchase or sale of securities or regarding voting rights.

2.3.6. Prevention or restriction of the performance of an action in the offered securities

Pursuant to the provisions of Article 15C of the Securities Law, 5748-1968 and the provisions of the Securities Regulations (Details regarding Articles 15A-15C of the Law), 5760-2000, the restrictions set forth below will apply to a sale while the offered shares are traded on TASE:

- (a) in the period of six months beginning on the date of the allotment (hereinafter: "**the First Period**"), the offerees will not be allowed to offer the offered shares while being traded on TASE without publishing a prospectus the publication of which was authorized by the Securities Authority.
- (b) For a period of six consecutive quarters after the end of the First Period, the offerees will be entitled, in the framework of trading on TASE without publishing a prospectus the publication of which was authorized by the Securities Authority, on each trading day, to offer no more than the daily average of the TASE trading volume of the class of shares offered, provided that the total offered amount of the shares offered in each quarter will not exceed 1% of the issued and paid-up equity of the Company as of the day of the offer. For this purpose, "issued and paid-up equity" does not include shares that result from the exercise or conversion of convertible securities that have been allotted up to the date of the offer and have not yet been exercised or converted.

2.3.7. Date of allotment

The Options Allotted to the CEO and CFO will be allotted to the offerees shortly after receipt of all approvals required by law, including the TASE approval of the shares which will result from the exercise of the options offered.

3. The required majority

For the purpose of approving the resolutions set forth in Sections 1.1 and 1.2 above, a majority is required in accordance with section 267A) (b) of the Companies Law, i.e., a majority of the votes of the present shareholders (either directly or indirectly by proxy) and entitled to vote, provided one of the following is met:

- (A) The count of the majority of the votes in the General Meeting will include the votes of the non-controlling shareholders of the Company or parties personally interested in approving the remuneration policy who participate in the vote; the count of all the votes of the said shareholders will not take into account the abstaining votes; Those who have a personal interest will be subject to the provisions of Article 276 of the Companies Law, *mutatis mutandis*;
- (B) The total number of dissenting votes from among the shareholders referred to in subsection (a) (above did not exceed a rate of two percent) 2% (of the total voting rights in the company).

Pursuant to the provisions of Article 272 (c)(3) of the Companies Law, the Remuneration Committee and subsequently the Board of Directors may, in special cases, approve the resolution specified in Sections 1.1 and 1.2 on the agenda even if the General Meeting opposed the resolution, provided the Remuneration Committee and subsequently the Board of Directors decided on this, on the basis of detailed reasons, after reconsidering the transaction and examining in the aforesaid discussion, *inter alia*, the minutes of the General Meeting.
